YOUR DOLLY-MOVER **CARY®** *up*

WORK SMART - NOT HARD!

By letting AMRs move your parts or intermediate goods, employees can focus on their main tasks. **CARY®** *up* transports dollies through your production facilities.

KEY FACTS

- intelligent fleet management
- communication with machines
- VDA 5050 ready
- integratable in existing (intra-)logistics systems
- payload of **up to 250kg**

CUSTOMIZABLE MATERIAL FLOW

CARY® *flex*

SPECIAL REQUIREMENTS? NO PROBLEM!

Special processes require special solutions!

There are many ways to configure the reception, transport and delivery of SLCs.

CARY® *flex* can be modified in multiple ways, so its material handling fits perfectly to your production facilities. It can be used both as an active and passive load suspension device. The AMR is linkable to machines and can move a **maximum payload of 100kg** in (if desired) ergonomic height.

ALL PRODUCTS ARE **CUSTOMIZABLE** FOR INDIVIDUAL NEEDS.

Just get in touch with us!
Together with you, we discuss your application and its feasibility.

SMALL GOODS, LONG WAYS

CARY® *light*

INTUITIVE HANDLING VIA TABLET

After an order is placed via tablet, CARY® *light* transports the required parts from the warehouse and takes them to the desired production location. This AMR is the perfect small parts supplier for assembly stations or quality management.
